Dear Governor Rauner and Members of the General Assembly,

As your constituent, I am calling on you to listen to the **87% of Illinoisans** who support licensing firearm dealers, by supporting legislation that will save lives.

90% of crime guns in the United States can be traced to only **5% of gun dealers**, some of the most notorious of which are based right here in Illinois. The local statistics are staggering: **Between 2009 and 2013, nearly 20% of all guns recovered from crime scenes in Chicago were sold by just four local gun dealers.**

ILLINOIS
GUN VIOLEN
PREVENTIOI
COALITION

It's time we stand up and say enough is enough and hold these bad apple gun dealers responsible. **We urge you to support legislation mandating state licensing of gun dealers** to keep guns out of the hands of people who shouldn't have access to them and protect our communities from gun violence.
